### **Repository**

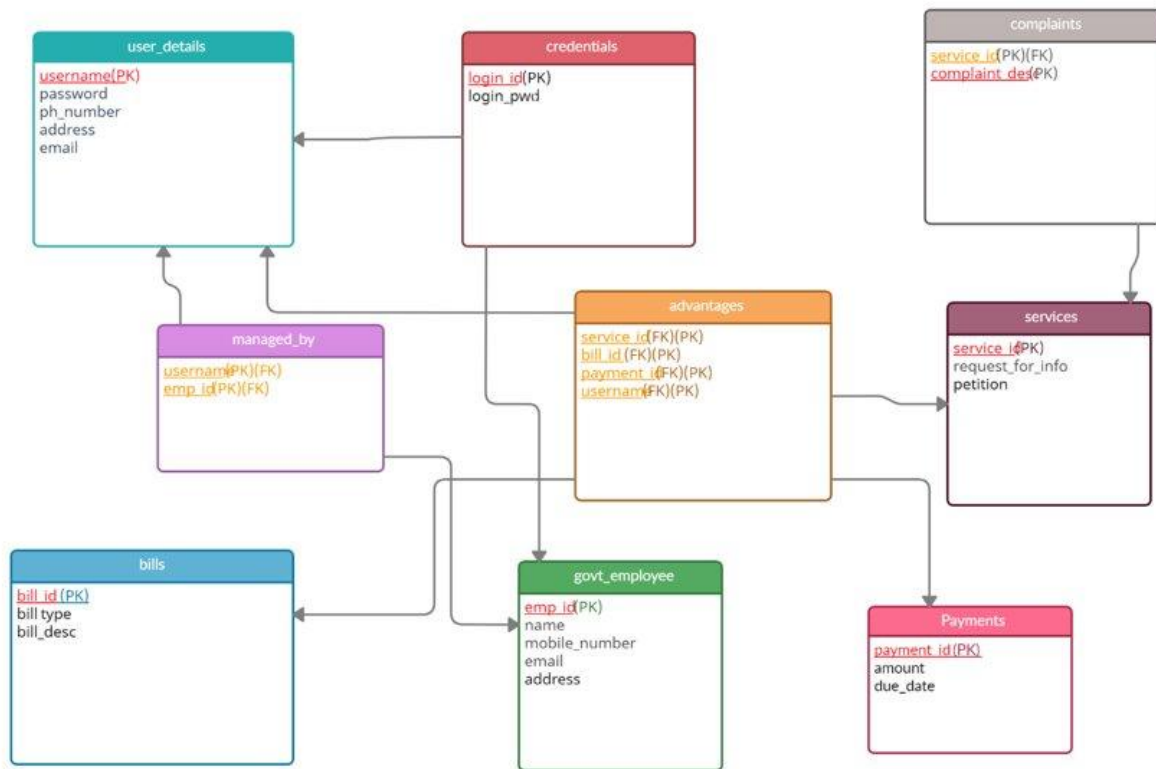

## Use Case:

### **User Stories:**

- The home page would be our login page, where we can log in as admin or client, where the admin is the Government administrator, and clients are the public who use the app.
- The admin features are view user details, view bills, view payments, etc.
- The admin can view user details and bills and payment IDs of different users.
- The client can view his user details, bills, and payments of only his account.
- There is an extra feature for clients which is a request for info, where they can request information from the Government.
